

Dear Sir/Madam, I am writing to apply for the position of Research Assistant at your laboratory. I recently completed my PhD in Computer Vision at Stanford University, where my research focused on deep learning methods for document understanding. During my doctoral studies, I have published 8 papers in top-tier conferences including CVPR and ICCV. I have also developed several open-source tools for OCR and document parsing that have gained significant traction in the community. I believe my background and skills would be a great fit for your research group. I look forward to the opportunity to discuss my qualifications further. Sincerely, Dr. Jane Researcher
